“ I remember when we children, there was a really bad storm. Our mother was at work late and i was the babysitter, i mustve been 14 and my brother was 8. He kept me calm that night considering i was terrified of the storm, that night he was the babysitter my protector. He grabbed some sheets and pulled it over us and what seemed like hours we stood in the dark hallway covered in sheets. The whole time he kept me distracted with his godfiness and held close. My brother had the biggest heart. He had always been my protector. I will miss him so much that words cannot express. I love you brother and i always will. Till me meet again my guardian angel.
