“ I will miss you forever Dad you always made my world brighter when things where going dim. You would make my mother and I smile and laugh or roll our eyes when you weren't being serious. You knew how to dance and you loved music and I know it's been 3 years but the pain is still there from the hurt I love you forever and I know you are here with me even if it's not in the physical. I will never stop missing you. Love you forever because you said you love me forever.
