“ I am so sad to hear about the passing of Dr Gutterman. I worked many overnights with Gutts in the Marylane ER. I will always remember him for his flare for drama, both in the ER and on stage preforming with Remy. We have lots of fond memories of Jeff, who occasionally would become Marsha Marsha Marsha! :) rest easy Jeff

“ I am writing with a heavy heart to express my deepest condolences on the passing of Jeffrey. I am deeply saddened by the news and my thoughts and prayers are with you during this difficult time.\n\nJeffrey and I were both members of Sigma Alpha Mu at IU and we shared some incredible memories together. I remember him as someone who always had a smile on his face and a positive attitude that was infectious. Even though I only saw him twice since college, his memory remains fresh in my mind and I will never forget him.\n\nI cannot imagine what you must be going through at this time, but please know that Jeffrey was loved and admired by many. He touched the lives of those around him in a very special way and his memory will always be cherished. I hope that you can find comfort in the fact that Jeffrey will always be remembered with great fondness and respect.\n\nPlease accept my deepest sympathies,\n\nJeffrey Bassock

“ Dear Remy,\n\nI remember Jeff best from our early days in the Baystate ER. We shared some crazy shifts in the bubble as the newbies just trying to keep up. Outside of work Jeff became a confidant when he finally won my pal Karen's heart.\n\nYour birth completed his world.\n\nDear Jeff, \n\nRest in peace friend.

“ I once worked with a great ER doctor named Jeff for years at Marylane ER as night supervisor. Jeff was kind and a great doctor to work with. I will never forget the night he came in and showed me a picture of his newborn Remy in her mothers arms. He was so proud of her. Jeff I lit a candle for you and forever will miss you. It's true only the great die young. Rest in golden angels arms and look down at us and see our kisses and hugs being sent. I will be forever educated from your knowledge and leadership of great doctors in the ER as you were. Laura Lussier
